

## Standpipes

Shoalhaven Water hires metered standpipes to customers who wish to extract water from Councils water main for use on development sites, water cartage, road works, landscaping and wherever access to water is limited.

Customers are required to enter into an agreement with Shoalhaven Water for their use. They are available for hire on a weekly, quarterly and yearly basis. A refundable deposit is also required which will be returned once the hire is complete and all payments have been received by Shoalhaven Water. The charges applicable are for the hire of the standpipe and also for water usage which is calculated quarterly.

The current Metered Standpipe Hire Agreement details Shoalhaven Water's requirements in relation to the hiring of a metered standpipe. The hire and water usage charges are fully explained as well as the use of the standpipes, prohibited areas of use, reading the meter on the standpipe and supply and return of standpipes.

Shoalhaven Water hires out 65mm and 25mm metered standpipes.

A 65mm metered standpipe.

A 25mm metered standpipe.

Shoalhaven Water requires that the metered standpipe is read by the hirer on a quarterly basis with the reads returned to Shoalhaven Water. The read consists of noting all of the black numbers on the dial. The water usage account is charged on a kilolitre basis.

All the black numbers are to be read.

65mm standpipe and 25mm standpipe ready for use.

For a more information please read the Metered Standpipe Hire Agreement or contact Shoalhaven Water on (02) 4429 3387.
